

# Gasfitting Category B Evidence Guide

**Assessment Evidence Guide for applicants to prepare for  
Recommendation for Registration**

# EVIDENCE

## Compulsory – you must tick all boxes and provide these pieces of evidence:

Evidence of **seven years** working **full time in New Zealand** in **gasfitting** in the form of **letters** from **current and/or past employer(s)** which:

- Covers the required **7 year time period**
- Are on **headed paper**
- **Signed and dated** by the author
- Lists **specific gasfitting work** carried out
- Specify **exact dates (dd/mm/yyyy)** of employment with each employer

Evidence of **First Aid, Health & Safety certificates, current or expired.**

**Other – you must provide further evidence to show you meet the competencies required. The more you supply (particularly visual evidence) the less questions your assessor will have for you. Examples of the type of other evidence to supply:**

- A copy of your trade license card, current or expired.
  - Certified copies of other relevant training, e.g. specialised training, or courses such as: Asbestos, Confined spaces, Solar Heating, supplier training.
  - BCA inspector site inspection paperwork or testimonials from Council inspectors.
  - Photographic or video evidence showing range and types of work undertaken.
  - Job cards verified by supervisor.
  - Certified copies of invoices, tax records, contracts, design plans, Council / Territorial Authority plans, quotes, consent/permits, etc.
- I have read the **gasfitting evidence guide** and **collected physical evidence** from the given list for each of the criteria outlined in the guide.

## WHAT YOU'LL NEED EVIDENCE OF:

For each of the following competencies you will need to supply verified evidence and/or show understanding. **Use this checklist to record what evidence you will supply for each. There is an example shown in red.**

We **generally expect no more than 30** documents (1-3 for each of the points below), and your concentration should be on **quality rather than quantity**.

Competency	My Evidence
Understanding of working with sheet-metal equipment and pattern creation for Gasfitting.	Transcript of your training showing this skill included or, Listed in a letter from Employer Photographs
Understanding of working with sheet-metal equipment and pattern creation for Gasfitting.	
Sheet-metal work verified by Supervisor.	
Evidence of working with tools and equipment for sheet-metal projects.	
Understanding the properties of gas and application of less frequently used materials.	
Application of materials used in gasfitting, including material protection and jointing methods.	
Understanding of as built drawings & job variations. Draw job specifications.	
Understanding of atmospheric pressure, vaporization, combustion, heat transfer and efficiency.	
Gasfitting tools and testing equipment.	
Understanding of different types of flues, limitations of flue designs, flue materials, installation requirements of different flues. Including onsite evidence of flue installation.	
Ducted heating systems.	
Understanding of how flueless gas appliances operated, room size requirements and where they can and cannot be installed.	
Understanding of Safety devices and combustion air requirements.	
Installation of gas pipework and show understanding of purging techniques, testing procedures and leak tracing methods.	
Maintenance of mechanical gas and electronic gas appliances and equipment including an understanding of	

commissioning procedures for and maintenance of.	
Installation of an LPG Cylinder station and the equipment related including location restrictions.	
LPG Installation in a mobile application.	
Gas boosted solar and hydronic heating systems.	
Understanding of electrical and electronics work that applies to gasfitting within the limitations under the Electricity Act 1992.	
Weather tightness methods in relation to penetrations of the building envelope.	
Specifications, installation, materials flashings, and maintenance of roofs.	

## WHAT YOU'LL ALSO NEED TO BE AWARE OF:

For each of the following you will need to show an understanding of how to access appropriate compliance documents for the following resources:

### NEW ZEALAND COMPLIANCE REQUIREMENTS

- Understanding of the regulatory framework for Gasfitting.
- Understanding of the registration classes and limitations/responsibilities of each.
- Resources can be sourced from <https://www.pgdb.co.nz/>
- Knowledge of the applicable sections of the NZ Building code requirements and acceptable solutions.

Resources can be sourced from <https://www.building.govt.nz/building-code-compliance/>

## COMPLETING YOUR APPLICATION

Once you have compiled your evidence and completed all the requirements outlined in this guide you are ready to submit your application.

Follow the instructions on the website to make your payment, and complete and submit your application.

Please note that when you submit your application you will be confirming the following.

## Declaration

By submitting this form, I confirm that:

- I understand that payment is non-refundable.
- I have understood the eligibility criteria and I am able to supply all the required information.
- The information contained in my application is true and correct.
- I understand that if I obtained my registration or licence wrongfully, the Board may, following due process, cancel them.

## FINAL CHECKLIST

This checklist is for your reference to ensure you have completed all requirements.

I have completed the following:

- Applied for the correct category (Category B)
- Match the eligibility criteria for Gasfitting Category B
- Assembled all evidence - ticking off all points on the compulsory evidence checklists and including some further evidence from the "Other" section in your evidence checklist
- Read and understood the declaration
